

# Engineering/Public Works Fee Schedule

## Engineering Plan Review Deposit

Deposit is calculated as 2% of the engineer's estimate for the project's utility and paving construction costs. The township review costs are deducted from the deposit and any remaining funds are returned.

## Construction Management Deposit

The deposit is the estimated amount of expenses for the township's involvement in the project management and inspection of site improvements. The deposit amount is calculated by the township's project engineer based on the estimated days for construction and the amount of work involved. Township expenses are deducted from the deposit and any remaining funds are returned.

## Punch List Bond

Following final inspection, any incomplete items requires the developer to post a cash bond to ensure completion per the engineering drawings. See attached Punch List Fee Schedule.

## Irrigation Fees and Bonds

### Fee

Separate irrigation meters are not allowed for commercial projects or individual residential property owners. Please refer to the Water and Sewer Ordinance, Chapter 74 of the Municipal Codes for applicable projects.
